Desired starting salary

Hometown

Favorite outdoor activity

Favorite indoor activity

Desired work location

# Statement

The focus of this class is not about environmental content. There are many classes and opportunities at UNI and beyond to learn about environmental processes, products and systems.

This class is about helping you identify, work towards and prepare for an environmental career.

# Homework Due Monday Jan 22 Hardcopy

Pre-Essay – What are your personal connections, history and interpretations of the Earth's environments. How are they important to you? Describe your idea job post UNI?

Looking for two paragraphs and/or one page.

# Break down into groups of 5 or less

- Introduce yourselves to each other
- Come up with an environmental group name
- Get a piece of paper or two and elect one person as the group leader

# Question set 1

- What types of environmental careers do you know about? Which interest you most? (List then a few sentences)

# Question set 2

- In your mind what steps has your group taken already toward an environmental career?
- Try to list these steps in chronological order (oldest on the bottom younger toward the top).

# Question set 3

Make an educated guess:

- What career tools are you most interested in learning more about?
- Do you have any concerns or questions you would like me to know about as our class begins?

# Question set 4

- What are our civilizations' greatest environmental challenges?
- What are civilizations' greatest environmental opportunities?
